

Quality Shade for any Outdoor Area

Shade to Order specialise in designing, manufacturing and installing custom designed C.O.L.A. and shade structures along with covered walkways to suit your specific requirements. No matter where you are or what you need, we can offer practical, cost effective solutions to suit almost any budget. Our sturdy structures are designed to withstand the strongest winds and harshest weather conditions. Permanent and fully engineer certified, they last for years and years with very little ongoing maintenance. Typically our structures are warranted for a full 12 years.

Membrane Structures are perfectly suited to enhancing any outdoor area. We have completed many projects at schools and colleges that **provide shade and weather protection, are 100% UV rated yet allow translucent light through making them an ideal all weather learning area.**

Now is the perfect time to get in contact with us and start planning your new covered outdoor area or walkway and investigate the benefits of an eye-catching yet practical Tension Membrane Structure.

We use the latest high tech computer systems and programs together with our custom machinery to ensure the utmost accuracy and attention to detail. Our global experience coupled with our skilled staff have led to us becoming Australia's leading tension membrane specialist. Award winning shade solutions at realistic prices is what we are about. Contact us today for more information.
